Operating Systems Windows XP; Vista; 7/8/8.1; Windows Server 2012/2019; Linux; Ubuntu

Databases PostgreSQL; MySQL; Azure SQL;

Web Design React; Vue; HTML; CSS; Bootstrap; Wordpress

Work History

March 2022 – Current **TC Industries of Canada**

- **System Administrator & Programmer**

Managed and maintained most IT infrastructure for Canada. Primarily utilizing PowerShell, Python, and React to automate routine tasks and develop internal tools used across our American, UK, and Canadian branches based on each location's unique needs.

June 2022 – Current **Painted Robot**

- **Senior Frontend Developer**

Employed technologies like React, Vue, and Wordpress. Bridged the gap between graphical design and technical implementation. Collaborated closely with product managers and designers, ensuring the visual elements of the web applications were aligned with the brand, providing users with seamless and engaging experiences.

April 2020 – March 2022 **Labstat International Inc.**

- **Computer Systems Technician**

Utilized a wide array of technical skills and problem-solving ability to provide the best support for our clients.

Education

2016 – 2019 **Durham College**

- **Computer Systems Technician**

2015 – 2016 **Fanshawe College**

- **General Arts and Science**
